## Marketing Methods

Apart from selling your books assiduously on-line, there are a number of other strategies that may show you how to sell more books.

One is to offer something away free of charge with your book, equivalent to a valuable bonus item. Or bundle several ebooks below one value,

which lowers the value for each e-book in the event that they were bought separately.

An efficient method for figuring out a value is to ship out a survey to your current customers. If these clients have already bought an ebook from you, ask for their opinion when it comes to price. Do that by creating a sales web page for the new book, however don't include a value on that page. As an alternative, add a lot of links to survey questions that ask pointed questions to help you in assigning a value to your ebook.

One other strategy is to check out costs by creating a variety of duplicate gross sales pages with completely different prices on every page. Make sure that your sales copy is exactly the identical on every page, and consists of your promoting-deal with sentence. Then determine for every web page the conversion ratio between visitors to your website and

sales of your book. It will tell you what your optimum value is.

In the end, if you happen to've written a guide that solves a problem or presents a brand new approach, your book will bring in both visitors and profits.
